

Music Together(R) at the Community Yoga Center

The Community Yoga Center together with Moni Kiraly of Whirligig Music (www.whirligigmusic.com) is now offering Music Together(R) classes in San Marcos!

Music Together classes are joyful, fun music and movement classes for children birth-5 and their favorite grownups.

Music Together is an internationally recognized and research based music curriculum based on the belief that all children are born musical, but, in order to develop into the musical beings they are meant to be, they need to be introduced to music and music making between the ages 0-5. Just as with language learning, children's musicality needs to be fostered at this early age by the main caregivers (parents). Children's music learning starts by observing the parents' modeling - regardless of the parent's own musical ability! The parents do not need to be a competent musicians or even be able to sing in tune to help their child start a musical journey that will last a lifetime.

The Music Together program's main goals are to help parents and children experience the joy of community music making and to support parents in their role as musical models to their children.

Music together is offering 9 collections (taught over a 3 years period) of tunes/rhythms/rhymes as well as by teaching lots of different ways of adding musical learning and fun (as well as musical comfort and calming) to everyday life.
